

Want an industry  
job after B.S.?

Not ready to commit to  
graduate school?

# CHECK OUT THIS Revamped, one-year Biotech Certificate Program

(Post-Bac Certificate in Biotechnology Program)

Department of Biological Sciences  
California State University, L.A.

Application due date for Fall 2018 cohort: April 16, 2018

- One year program (including summer internship)
- Newly designed core courses
- Flexible electives based on your interests
- Dedicated faculty and staff advisors
- Scholarship support (stipends)
- Extensive hands-on biotech research training
- Company internship placements (often leading to jobs)

Funded by a \$2.3 million grant to Cal State L.A. from the US Department of Education's "Promoting Postbaccalaureate Opportunities for Hispanic Americans Program", Cal State L.A.'s BiotechCP is being updated to fit the changing bioscience industry requirements for its workforce.
