HURRY - DEADLINE TO SIGN UP IS MARCH 25TH**

CHSU – COM’s Anatomy Boot Camp (ABC) will make learning Anatomy as easy as 1-2-3!

The course is taught by CHSU-COM faculty and will include the following:

1. HoloLens anatomy demonstrations
2. Brief medical school level biomedical sessions (biochemistry, physiology, immunology)
3. Introductory courses about osteopathic principles and practices
4. Tours and demonstrations of the simulation lab

Participants will be divided in small groups.
Each group will participate in four 30 min sessions a day for four Saturdays.

All participants will be asked to take a short quiz at the beginning of their enrollment and at the end of the course. They will also have the opportunity to fill out a questionnaire assessing their opinion on: holographic anatomy, osteopathic medicine awareness, and medical school level course knowledge.
