

# Medical Education Apprentice Fellowship

*Summer program focused on creating pediatric medical education videos to help facilitate understanding of diseases, treatment, and motivation within our patient population.*

## Qualifications

Anyone at any stage (high school, college, post-college grad, medical students) who is interested in health care, education, and/or technology are welcome to join the team. No previous experience required.

## Volunteer Requirements

- Be able to commit for the summer
- Attend Zoom meetings (schedule is flexible)
- Create 2-3 videos

## Benefits

- Learn how to work with animation software
- Recognize how social determinants of health play a role in disease
- Mentorship & leadership opportunities
- Learn the various types of illnesses prevalent in the Central Valley
- Gain insight on the path of becoming a healthcare professional
- Understand what it means to be a physician
- Work with medical students and UCSF Fresno physicians in different specialties (endocrine, gastrointestinal, pulmonology, burns/surgery)
- Opportunity to present at conferences
