

Graduate Research Opportunity Joint Genome Institute Info Session

The JGI/UCM Genomics Distinguished Graduate Internship Program provides graduate students at the University of California, Merced (UCM), to spend the summer in labs at the DOE Joint Genome Institute (JGI). Students in the program will be selected to participate in research projects, including weekly group meetings to report their progress, and a final presentation to summarize their research findings.

Thursday, Oct 12th

1 to 2 PM

Science and Engineering 2
Room 224

UCMERCED
UNIVERSITY OF CALIFORNIA
