

### Meet your new best friend, Jade...

Jade is a 2 year old female "Lab Pei" half Chinese Sharpei half Black Lab. She has the quiet demeanor and fastidiousness of a Sharpei and the loveable loyal personality of a Lab. Jade isn't big on barking but she will let you know if someone is at the door, which makes her a good watch dog. However, don't rely on her for true guarding as she doesn't understand how to be mean or aggressive. She loves her people and food in that order and while she is happy to go on walks (and she needs them regularly to help keep her weight in check) she is not a high energy girl- no digging, fence jumping, or destructive chewing. Jade knows how to use a doggie door and has never had an accident in the house, as she is quite picky about where she will go.

Jade knows how to walk on a lead, ride in a car, sit, down, stay, come and flip (rollover). She does not like to shake with her paw but will if you insist and reward with a treat. Jade is a real observer, she watches everything and can tell just by the shoes you are wearing where you are going. She also has the uncanny ability to find abandoned food or trash, so leaving food unattended is a risk.

Jade is spayed, and up to date on shots and licensed for Merced County.

Jade comes with a bed, toys, food and water bowls, a lead, collars, a blanket and travel backpack as well as her well stocked food and treat bins.

#### \*Grad student special\*

If you think Jade may be the dog for you we would be happy to provide regular deliveries from [Chewy.com](https://www.chewy.com) including food and treats for 6 months as well as a three year dog license for Merced County to help defray costs.

Please consider adopting our furry family member. If you are interested in meeting Jade or learning more please text me at 310 210-4858.
