

# Lecturer in Global Change Ecology

Applications are invited for a full-time Lecturer in Global Change Ecology. The appointee will deliver novel conceptual advances and/or mechanistic understanding of the responses of terrestrial species, communities and ecosystems to global change, and so contribute solutions to contemporary environmental problems, such as achieving net zero carbon emissions, climate change mitigation, the loss and protection of biodiversity, and land and biodiversity management for ecosystem services.

**Job reference:** SAE-018384
